### Interdisciplinary Scientific Seminar

#### Introduction

Central Campus of Technology is organizing one day multidisciplinary scientific seminar entitled “**Climate change and its Impact**”. The seminar aims at bringing together the faculty members and students from different disciplines of the Campus to discuss the effects of the climate change in the present research scenario.

The main goal is to introduce about scientific seminar and make familiar of it among students and new researchers. Multidisciplinary contributions dealing with studies, observations, experiments which are directly or indirectly related to the climate change are warmly welcomed. Faculty members involved in PhD, students involved in thesis research, project works are encouraged to submit and present their studies, the results of their research, as well as ideas or project. The contribution of participant, the discussions during the scientific sessions, and the comparison between different investigation methodologies will allow for the development or strengthening of collaborations between faculty members, researchers and students.

#### Abstract Submission

Central Campus of Technology encourage the faculty members and students to submit abstracts related to recently completed or ongoing research for either oral or poster presentation to the organizing committee of the seminar going to held in **21<sup>st</sup> Baisakh 2080**.

The abstract should be written following the guidelines (provided below) and sent to [abstractcall@cctdharan.edu.np](mailto:abstractcall@cctdharan.edu.np)

The Scientific Review Committee will select talks or posters based on the number of the submitted abstract. The type of presentation will be informed to the authors via mail in early working hour of **18<sup>th</sup> Baisakh 2080**.

The abstract volume of the selected abstracts from the participant will be distributed to all participant during the seminar and also published in the Campus website.

**Deadline of Submission: 16<sup>th</sup> Baisakh 2080**
